Mchis Do

A UI/UX designer with 4 years of experience, on a journey trying to find a way to create meaningful products for users alongside a beautiful UI.

Experience

Unstatic / UI UX Designer

July 2025 – Dec 2025

- Solely responsible for developing new features to expand the core functionality of Habitify, covering the full process: user research, idea presentation, development planning, UI design, prototyping, and animation. Collaborated directly with engineers to ensure pixel-perfect UI implementation, seamless user experience, and accurate information architecture.
- Upgraded and revamped existing features to keep the product aligned with the latest technologies and functionalities.
- Designed and developed the company's product website on Webflow.

Beau Agency Vietnam / UI designer

May 2023 – Dec 2024

- Led UI design for Digital Kidu Mobile App, Sacombank Business Digital Bank, LPBank Digital Bank, and LPBank Portal Website.
- Built and managed design library system to boost team efficiency, consistency, and reduce redundancy.
- Analyzed client products to uncover design opportunities and propose future solutions.

October 2021 – April 2023 (junior designer)

- Created Shopify store themes, foundational systems for efficiency and scalability, and ecosystem apps.
- Optimized UI for VietinBank eFast (internet banking) and Sale Support (RM sales system).
- Designed websites for Stavian Chemical, The Global City...
